Kanyakumari district, 629152 | +91 7306458034

To leverage my expertise in front-end and back-end development, along with my experience in React, Angular, and Node.js, to contribute to innovative projects in a dynamic organization. I aim to further enhance my skills and grow professionally in a challenging environment.

Work Experience

Junior React Developer - Jun 2024 - Present

Akira Software Solutions | Technopark phase 1 , Trivandrum.

Developed a Preschool Management Software using React Vite and Odoo, featuring modules like Dashboard, Attendance, Timetable, Payments, Events, and more to streamline daily operations in early education centers. SmartSchool Portal: Built a dynamic educational management application using Angular to efficiently handle academic and non-academic activities, enhanced session security, and optimized performance through component refactoring. SmartCollege Portal: Designed and implemented a comprehensive college management system using Angular and Odoo, focusing on streamlining enrollment processes, academic tracking, and integrating reusable, scalable components. Designed and implemented two responsive static websites on React, ensuring cross-browser compatibility and collaborating with design teams to deliver functional interfaces.

Python Full Stack Developer Intern - Jul 2023 - Jan 2024

Srishti Innovative | Technopark phase 1 , Trivandrum.

Developed and implemented frontend and backend solutions for dynamic web applications using HTML , CSS , python and django web frame work. Proficient in Python and Django framework and hands-on experience with database management using DjangoORM. Enhanced skills in debugging, testing, and maintaining code quality.

Projects

Preschool Management Software

Preschool Management Software is an all-in-one platform designed to simplify and streamline the daily operations of early education centers. Built with React Vite on the frontend and powered by Odoo for the backend, this intuitive system offers essential modules including Dashboard, Profile Management, Daily Activities, Timetable, Attendance Tracking, Payment Management, Incident Reporting, Parent-Teacher Conferences, Events Management, and Lost & Found. It enhances communication, improves organization, and supports a well-managed preschool environment for staff and parents.

Leena's Mushroom Management System

Developed the backend for a mushroom management application using Node.js, integrated seamlessly with a Flutter frontend. Designed and implemented robust APIs to support data synchronization and efficient communication between the backend and frontend. Key features included inventory management, order processing, user authentication, and analytics. Ensured high scalability and performance by optimizing database queries and employing best practices in backend architecture.

SmartSchool Portal

Developed and maintained feature-rich, dynamic educational management application designed to efficiently handle both academic and non-academic activities. The application includes essential modules such as Dashboard, Attendance Management, Messaging, Assignments, Fee Payment, and more. Enhanced session security to protect sensitive user data and conducted comprehensive component refactoring to optimize performance, reduce code redundancy, and improve maintainability, ensuring a seamless experience for administrators, teachers, and students.

Core Skills

Frontend: React js, Angular js, Html & CSS, Javascript

Backend: Node.js, Express.js

Database: MongoDB

Tools and Techs: Gitlab & Github, Figma, Ai Tools

Education

Manonmaniam Sundaranar University - Aug 2020 - May 2023

Bachelor of Computer Science

GPA: 7.88 cgpa

State Board of Education Tamilnadu - Jun 2018 - Mar 2020

Higher Secondary Education

GPA: 67.84 %

State Board of Education Tamilnadu - Jun 2017 - Mar 2018

S S L C

GPA: 94.8 %

Languages

English, Tamil, Malayalam
